Witte onschuld Jun 20 2019 In Witte onschuld onderzoekt Gloria Wekker een centrale paradox in de Nederlandse samenleving: de passie en agressie die ras oproept, terwijl het bestaan van ras en racisme tegelijkertijd in alle toonaarden wordt ontkend. In haar verkenning van het dominante zelfbeeld van de witte Nederlander is het 'culturele archief' een leidend concept: de diep ingesleten attitudes en emoties die racisme in stand houden en hun oorsprong kennen in het koloniale verleden. In een nieuw uitgebreid voorwoord kijkt Gloria Wekker terug op het jaar 2020, in meerdere opzichten een annus horribilis, en komt zij uit op vier nieuwe paradoxen, aanvullend op de vier tegenstellingen die zij al noemde in de oorspronkelijke inleiding van Witte onschuld.

Europe and the End of the Age of Innocence Jul 02 2020 "Bongiovanni's message should be heeded, especially in Brussels, Berlin and Paris" – John Peet, Political Editor, The Economist Francesco Bongiovanni returns with a sequel to *The Decline and the Fall of Europe*, a book Guardian journalist Nils Pratley labelled 'a wake-up call for the twenty-first century'. Since 2012 Europe has been confronted with new, unexpected game-changing challenges such as the refugee crisis and its human tsunami, the surprise of Brexit and the explosion of 'alternative' politics. Europeans have finally come to realize that the open-societies that they have been comfortably living in are under threat and fragmenting, leaving their survival uncertain. Minorities

are falling prey to an Islamist ideology that conveys values and customs diametrically opposed to European ones. Terrorist acts have become the 'new normal', part of daily life. The North-South cleavage brought about by the eurozone crisis is now completed by a deep East-West cleavage born from the refugee crisis. Against this backdrop, a Germany that is not all that it seems has become Europe's de-facto ruler, but is unfit to lead, while Trump's America cannot be counted on as it once used to be, forcing Europe to fend for itself. A beacon of stability and prosperity in the past, a naive and unprepared Europe, facing new and terrifying challenges is today more than ever torn apart, increasingly unstable and adrift.

Unjust: Conviction of Innocence-Mathilde's Story Nov 25 2019 William and Mathilda were German immigrants who moved to the small rural community of Swan River Township, a rural farming community outside of Little Falls, Minnesota. The area was flooded with immigrants; mostly German and Polish families who spoke little English. There was a great deal of jealousy from local farmers at how prosperous the immigrants were becoming as farmers, and prejudice ran deep... ..even if unspoken in this small rural community. In early August 1908-according to Mathilda Gollnik-two burglars entered their residence at night, and after arguing with her husband, struck him in the head causing a wound that would prove to be fatal. After surviving for three days, William Gollnik died without ever regaining consciousness. It was later determined he was probably struck with a heavy blunt instrument, probably a hatchet. ...The murder weapon was never recovered. After the attack on her husband, Mathilda ran to a neighbor's house for help. They summoned the local sheriff and a local doctor who arrived at the scene. The local doctor, being unable to communicate well with Mathilda as she spoke little English, assumed she had committed the crime. The local sheriff, who had virtually no law enforcement training and had two years earlier been a local farmer, conducted virtually no substantive investigation, not taking so much as a single note, and also assumed Mathilda had killed her husband. ...Two years after the murder he returned to farming. Mathilda was ultimately arrested for the murder of her husband, was tried, and convicted. There was virtually no evidence presented at trial to show she had committed the crime, and her attorneys presented a defense so inept that they didn't call a single witness in her behalf. The only evidence presented by the prosecution was that it was well known that their marriage was an unhappy one, and Mathilda had previously attempted to obtain a divorce which was never finalized as they resolved their differences and continued living as man and wife. The trial lasted about four days, and the jury consisting of local farmers, deliberated only hours before returning a guilty verdict. The prosecuting attorney, within three hours of the verdict, petitioned the court to impose an immediate sentence, which was granted, and Mathilda was sentenced to life imprisonment and was immediately transported to prison. After her conviction, it was literally a feeding frenzy to acquire her property and possessions, by neighbors, attorneys, family members, and local farmers. ...But what happened in the ensuing years was even more unthinkable.

Taming the Presumption of Innocence Jun 25 2022 The notion that an individual accused of a crime is presumed innocent until proven guilty is one of the cornerstones of the American criminal justice system. However, the presumption of innocence creates a number of practical and theoretical issues, particularly regarding pre-trial and post-trial processes. In *Taming the Presumption of Innocence*, Richard L. Lippke argues that the presumption of innocence should be contained to the criminal trial. Beyond the realm of the trial, legal professionals, investigators, and the general public should carry out their respective roles in the criminal justice process without making any presumptions about guilt or innocence whatsoever. Rather than eschewing the significance of the presumption of innocence, the book defends its role within its proper context, the criminal trial. According to Lippke, other aspects of the criminal justice system such as investigation, lawmaking, and treatment of ex-offenders should be conducted in such a way that reflects the fallibility and unpredictability of the system without involving the issue of presumed guilt or innocence. Lippke dispels the idea that the presumption of innocence can be used to remedy some of the current issues in the practice of criminal justice, and instead proposes engaging in deeper, more substantive reforms of the American criminal justice system. The first monograph dedicated exclusively to the presumption of innocence, *Taming the Presumption of Innocence* will be an ideal text for students and scholars of criminology, criminal justice, and legal theory.

Edith Wharton's most famous novel, written immediately after the end of the First World War, is a brilliantly realized anatomy of New York society in the 1870s, the world in which she grew up, and from which she spent her life escaping. Dope in the Age of Innocence Jan 08 2021 Ibiza, 1960: on the beautiful Mediterranean island, the high-rise resorts are still decades away. By chance, Damien Enright, twenty-one-years old and Irish, arrives there with his wife and two children and finds a handful of down-at-heel foreign Bohemians leading wild, hedonistic lives. He and his wife get involved; their marriage quickly breaks down and he spends two heartbroken years in London before returning to Ibiza with a new partner and another child. They take LSD and inspired by dreams of a brave new world, cross to the remote island of Formentera to lead alternative lives. This is a decade before Howard Marks became Mr. Nice: the embryonic drug culture in the west motivated not by profit but by idealism. Sometimes, that early search for freedom ventured not just beyond the mind but beyond the law. To sustain their families on Formentera, Enright and two desperado pals head to London in a beat-up car and do some risky travellers cheque scams. Then, restless and unsure of his love for his partner, he makes a hair-raising trek to Turkey in the depths of winter to find hashish for the group. Things go badly awry and he find himself a fugitive, at the mercy of unreliable friends. Part road story, drug story, love story, Dope in the Age of Innocence is fundamentally a parable about drug enlightenment, the loss and rediscovery of love and the tempering of innocence.

The Geometry of Innocence Apr 30 2020 "His first book was called Invisible City and has become quite a legend. Twelve years after this initial success, the American photographer Ken Schles now presents his second book of photographs - The Geometry of Innocence. With his photographs, Schles approaches the omnipresence of social structures, which - pushed by the flood of media images - are undergoing permanent, almost frantic change. In a veritable visual roller coaster he sends his viewers onto city streets, playgrounds, into pubs and bars, puts them into a police helicopter and takes them to death row, hospital rooms and police interventions. There is no "story", only a breathless sequence of pictures condensed into thematic clusters - a highly intense visual experience soon holding the viewer spell-bound. Ken Schles is aware that the meaning of the photographic image is relative. But he did his book anyway, and with The Geometry of Innocence, he succeeded in creating a bold, highly sophisticated picture book."--Publisher.

The Marriage of Heaven and Hell and Songs of Innocence and of Experience Aug 15 2021 Poet, painter, engraver, and visionary William Blake worked to bring about a change both in the social order and in the minds of men. Though in his lifetime his work was largely neglected or dismissed, he is now considered one of the leading lights of English poetry, and his work has only grown in popularity. contains many of the basic religious ideas developed in the major prophecies. Blake analyzes the development of organized religion as a perversion of ancient visions. "Thus men forgot that All deities reside in the human breast." Instead of looking for God on remote altars, Blake warns, man should look within. In the Songs of Innocence and of Experience, Blake investigates, as he puts it in the subtitle, 'the two contrary states of the human soul'. Blake's vision embraces radical subjects such as poverty, child labour and abuse, the repressive nature of the state and church, as well as the right of children to be treated as individuals with their own desires. Many of the poems in Songs of Experience respond to counterparts in Songs of Innocence. Blake inspired some works of David Brown, Philip Pullman and Bob Dylan, Jim Morrison.

The Age of Innocence Jun 13 2021 When the Countess Ellen Olenska returns from Europe, fleeing her brutish husband, her rebellious independence and passionate awareness of life stir the educated sensitivity of Newland Archer, already engaged to be married to her cousin May Welland, "that terrifying product of the social system he belonged to and believed in, the young girl who knew nothing and expected everything." As the consequent drama unfolds, Edith Wharton's sharp ironic wit and Jamesian mastery of form create a disturbingly accurate picture of men and women caught in a society that denies humanity while desperately defending "civilization."

Defendant Participation in the Criminal Process Jul 22 2019 Requirements for the defendant to actively participate in the English criminal process have been increasing in recent years such that the defendant can now be penalised for their non-cooperation. This book explores the changes to the defendant's role as a participant in the criminal process and the ramifications of penalising a defendant's non-cooperation, particularly its effect on the adversarial system. The book develops a normative theory which proposes that the criminal process should operate as a mechanism for calling the state to account for its accusations and request for official condemnation and punishment of the accused. It goes on to examine the limitations placed on the privilege against self-incrimination, the curtailment of the right to silence, and the defendant's duty to disclose the details of his or her case prior to trial. The book shows that, by placing participatory requirements on defendants and penalising them for their non-cooperation, a system of obligatory participation has developed. This development is the consequence of pursuing efficient fact-finding with little regard for principles of fairness or the rights of the defendant.

The Captivity of Innocence Nov 06 2020 In this study-the third panel of a trilogy on J's tales about evil and innocence in the primeval era-the author turns to Genesis 11:1-9, another parable, this time on the so-called "Tower of Babel." The Captivity of Innocence analyzes a systemic robotization of society as a way of keeping innocence behind bars, contending that innocence never fails to offend, never fails to stir envy and hate. Here, evil is not wrought by an individual like Cain or Lamech, but by "all the earth," so that the

summit of evil is now reached before Abraham's breakthrough in Genesis' following chapter. The present analysis uses a variety of techniques to interpret the biblical text, including historical-critical, literary, sociopolitical, psychoanalytic, and deconstructive approaches. The inescapable conclusion is that "Babel" is the "Kafkaesque" image of our world and is a powerful paradigm of our hubristic contrivances and constructions—"Des Tours de Babel," says Derrida—in order to deny our finiteness. Then innocence is trampled upon, but it is not overcome: Babel/Babylon's fate is to crumble down, and to bring up from her ashes the Knight of Faith.

Age of Innocence Sep 23 2019 The Age of Innocence is about the author's life from age 3 to 12. He uses clips of events during that age to reflect on their meaning and what can be learned from them. Events are our memory. Innocence is instinctive, innate, spontaneous; less intuitive, less considered, less deliberate. Life is a

big bundle of little things, little events. The diverse events in the universe of life serve a definite purpose. They are not accidental. Life has a higher design, the age of innocence is one place we can find some of that purpose; the ages of discovery, restlessness, and brooding will complete the other youthful places we can look. Reflection enables an honest and truthful review of who we are. The book is for learning, is as much about learning, about discovery. Time is the partner, the collaborator along with events and reflection that enable us to have a view of life's blueprint and God's hand in it. God is the primary cause of all that happens in life, in the universe. But, we must first acknowledge God for what He is, and have a personal relationship with Him.
