**Recovery Groups** Jul 22 2019 This book focuses on community self-help and support groups specifically in the context of recovery movements in addiction and mental health care. The idea of groups of recovering people meeting together may seem like a simple one and not one requiring much effort and thought; however, as this book will show, this is not the case. In *Recovery Groups: A Guide to Creating, Leading, and Working with Groups for Addictions and Mental Health Conditions* Linda Kurtz breaks down the recovery movement for addictions and mental health care into three sections. In the first section recovery concepts are broken down

into two fields: how they differ and how they come together. The second section focuses on methods of working with independent self-help groups and leadership in support groups. Kurtz touches on the study of helping mechanisms, social climate, group teachings, group structure, and how to use each of these to improve group performance. In the third section of the book, Kurtz examines social and community actions from members involved in Twelve-Step fellowships and consumer survivor organizations. The final section also details programs that provide employment, housing, and mutual support, explaining how to accomplish these goals without a large expense. This book will be useful to students, professional mental health and addiction workers, recovery coaches and peer support specialists, and group members and leaders who are interested in this topic.

Everybody Writes Oct 29 2022 Finally a go-to guide to creating and publishing the kind of content that will make your business thrive. Everybody Writes is a go-to guide to attracting and retaining customers through stellar online communication, because in our content-driven

world, every one of us is, in fact, a writer. If you have a web site, you are a publisher. If you are on social media, you are in marketing. And that means that we are all relying on our words to carry our marketing messages. We are all writers. Yeah, but who cares about writing anymore? In a time-challenged world dominated by short and snappy, by click-bait headlines and Twitter streams and Instagram feeds and gifs and video and Snapchat and YOLO and LOL and #tbt. . . does the idea of focusing on writing seem pedantic and ordinary? Actually, writing matters more now, not less. Our online words are our currency; they tell our customers who we are. Our writing can make us look smart or it can make us look stupid. It can make us seem fun, or warm, or competent, or trustworthy. But it can also make us seem humdrum or discombobulated or flat-out boring. That means you've got to choose words well, and write with economy and the style and honest empathy for your customers. And it means you put a new

value on an often-overlooked skill in content marketing: How to write, and how to tell a true story really, really well. That's true whether you're writing a listicle or the words on a Slideshare deck or the words you're reading right here, right now... And so being able to communicate well in writing isn't just nice; it's necessity. And it's also the oft-overlooked cornerstone of nearly all our content marketing. In *Everybody Writes*, top marketing veteran Ann Handley gives expert guidance and insight into the process and strategy of content creation, production and publishing, with actionable how-to advice designed to get results. These lessons and rules apply across all of your online assets — like web pages, home page, landing pages, blogs, email, marketing offers, and on Facebook, Twitter, LinkedIn, and other social media. Ann deconstructs the strategy and delivers a practical approach to create ridiculously compelling and competent content. It's designed to be the go-to guide for anyone creating or

publishing any kind of online content — whether you're a big brand or you're small and solo. Sections include: How to write better. (Or, for "adult-onset writers": How to hate writing less.) Easy grammar and usage rules tailored for business in a fun, memorable way. (Enough to keep you looking sharp, but not too much to overwhelm you.) Giving your audience the gift of your true story, told well. Empathy and humanity and inspiration are key here, so the book covers that, too. Best practices for creating credible, trustworthy content steeped in some time-honored rules of solid journalism. Because publishing content and talking directly to your customers is, at its heart, a privilege. "Things Marketers Write": The fundamentals of 17 specific kinds of content that marketers are often tasked with crafting. Content Tools: The sharpest tools you need to get the job done. Traditional marketing techniques are no longer enough. *Everybody Writes* is a field guide for the smartest businesses who know that great

content is the key to thriving in this digital world.

process of preparing yourself to be a game-changer, and show you how to take an idea from concept to its complete manifest form.
