Great American Artists for Kids Mar 12 2021 Fun and easy art-appreciation activities abound in this resource that features 75 American artists from colonial times to the present. A brief biography for each artist tells why his or her work is important, and a kid-tested art activity tries out the artist's approach. For Georgia O'Keeffe, the activity is a desert painting; for Frederic Remington, a face cast; for Leroy Nieman, a sketch of athletes; and for James Whistler, a clay engraving. Projects stress the creative process and encourage kids to try unusual techniques such as block printing, soak-stain, and stone carving as they learn about architecture, drawing, painting, photography, and sculpture. A resource guide provides a glossary of art terms, a list that groups the artists by style, a list of the artists' birthdays, an index of art supplies, and websites for viewing art online.

The Village Children, an Introduction to the Art of Painting Children and Their Stories Sep 17 2021 The book is both a children's story book and a craft book and is in two parts. The story book section contains short and longer stories for young children to read printed in both English and French. The craft section is an introduction to painting for the aspiring young artists. Part One - includes full colour illustrations of plates originally painted by hand on porcelain/china and canvas by Marie Dubois. On the opposite page the author has written stories both in English and French based on the theme of each plate. The stories have been translated to French to familiarise young children to a foreign language, especially now learning a second language has been added to the school curriculum. Part Two - is an introduction to the art of painting. The book gives brief instructions as to the materials required, basic techniques and painting principles that beginners will need to create some fine artistic tableau, as well as definitions of various brush strokes for beginners to practice, so that they can achieve their own fine art work. The Book also includes line work for each plate design, which can be traced on to any painting material. It is hoped that the artwork contained in this volume will inspire other painters to produce similar pieces of work. The designs require a great deal of careful creative attention. All drawings and colours on the designs have a distinctive style particularly the characteristic figures, old fashion costumes and hats. The book is not only for children to read or parents to read to their children, but is also for painters, art teachers and others who might be interested in creating this fine art and will have reason to feel proud of their own achievements.

Children's Educational Book: Junior Vincent Van Gogh Jun 02 2020 ABOUT THE 'SMART READS for Kids' BOOK SERIES "Love Art, Love Learning" Welcome to the 'SMART READS for Kids' book series. Designed to expand and inspire young minds; this is a range of short educational books for children aged seven and over. These books do much more than just teach children about Art and Artists. They also act as a gateway to a much broader general knowledge base. Although one Artist's life and major works are always the central theme, wider

learning is encouraged in the following ways: • Geography. When locations relevant to the Artist's life are mentioned they are always accompanied by a colourful, child-friendly map so that the opportunity to learn some world geography does not pass the young reader by. • History. If the Artist's actions or inspirations were based on the current affairs of the day then a snippet of history is explained in simple terms than can be easily understood by children. • Vocabulary. In general the vocabulary is uncomplicated. However, a manageable number of longer words are intentionally introduced and then reused in each book. These are always demarked by bright bold colours and are accompanied by a clear definition and pronunciation. There is also a Glossary at the end. • Maths. At least one maths sentence, for example a calculation of the Artist's age or how many years ago they were born, is included in each book. A column subtraction sum to accompany the statement is always laid out somewhere nearby. • Concentration. Each book is written in the friendly first person and a trail of footprints running through it always leads to a cute cartoon animal at the end. The author sometimes asks questions of the young reader (and the final section is always a quiz). These features both keep children engaged in the book and encourage them to form their own opinions. There is intentionally a high ratio of images to text. • Other Artists. No artist lives in isolation; they are invariably influenced by their peers and those that have come before them. Therefore each book introduces a select few new artist's names. In this way the child's knowledge horizon of Art History is gently expanded.
